Accessing Print

This booklet contains sample Functional Independence Accessing Print items from previous administrations. The information contained in this booklet may be used by schools, teachers, and parents as a resource for understanding the content and format of the assessment items. This document is not secure and may be copied and distributed as needed.

Each sample item contained in this booklet is preceded by the Extended Grade Level Content Expectation (EGLCE) code and a brief description of what the item measures. This EGLCE code and abbreviated descriptor is provided as a reference for educators and does not appear in the student test booklet. The complete set of Michigan's Extended Grade Level Content Expectations and Extended Benchmarks is located at www.michigan.gov/mi-access.

Since the grades 3-8 assessments are administered during the fall of the school year, only content from the previous grade level is measured on the assessment. For example, items eligible for the Grade 3 assessment will measure Grade 2 EGLCEs.

The table below lists the number of core items administered on the Functional Independence Accessing Print Assessments.

Functional Independence – Accessing Print Grades 3-8, and 11

Assessment Component	Number of Core Items
Part 1 Accessing Print - Word Recognition	20
Part 2 Accessing Print - Text Comprehension	3 passages/ 7 items each

The Word Recognition portion of the assessment assesses high-frequency sight words and high-utility functional vocabulary that are relevant to the Functional Independence student population. Assessed words are (1) highly familiar to students, (2) appear frequently in print in students' daily environments, and (3) measure important vocabulary.

At grade 3, students are asked to examine a picture and select a printed word that matches the picture. This task measures a student's ability to read words with support from illustrations and link words to the objects/actions they describe. The student is provided with three words, or answer choices from which to choose.

In the Text Comprehension portion of the assessment, students read or listen to three types of passages: narrative, informational, and functional. Narrative passages are fictional stories, Informational passages present factual information, and Functional passages present information in real-life context or format. Each passage is followed by 7 multiple choice questions.

All passages consist of content and vocabulary that are appropriate for the students being assessed. Students may have any or all of the passages and/or items read aloud to them.

Narrative Passage**Time for a Bath!**

Max has a dog. His name is Samson. Max and Samson are best friends. They do everything together. Samson is a very big dog. In fact, he weighs more than Max.

One day, Max was playing in his yard. As Max was digging in his sandbox, he noticed Samson was having a great time digging, too. Samson was in the flower garden and he was covered in dirt from head to toe.

"Samson! No!" Max yelled.

Max ran to find his big brother, Albert. He knew Albert would help. Albert told Max to fill up his little swimming pool. They could give Samson a bath outside.

Max got the hose and shampoo. The boys washed Samson's fur. They rubbed the dirt away with their hands. Samson was a very good dog. He didn't move until Max and Albert were done scrubbing him.

"That was easy!" Max said.

Samson jumped out of the pool and shook the water from his fur. Then, Samson saw a squirrel. Samson chased the squirrel right through the same flower garden! Max thought, "Here we go again."

Informational Passage**What Is Your Favorite Season?**

In Michigan, there are four seasons. The seasons are spring, summer, fall, and winter. There are fun things for children to do in each season.

For many children, summer is the best season. The weather is warm. The sun shines brightly in the sky. The days are longer, too. There is more time to play. Children can swim in lakes and pools. And, they can ride their bikes.

The next season is fall. During the fall, children go back to school. The weather gets cooler. The sky gets darker, and the days are shorter. The leaves on the trees turn pretty colors like red and orange. Then, the leaves fall off the trees. Children can rake the leaves. Then, they can make a pile and jump in the leaves!

After fall comes winter. During the winter, the days get even shorter. It gets dark early. The weather gets very cold. It snows, and the lakes and ponds turn to ice. Children can make snowmen and go sledding. They can ice skate, too.

Soon it is time for spring. The weather gets warmer and the days get longer. The sun starts to shine again. The rain helps to make the flowers, plants, and trees grow. In the spring, children can ride their bikes again and think about summer.

Functional Passage**Going to the Beach**

Rosa and Pam met at school. They became good friends right away.

One day, Rosa asked Pam to go to the beach with her family.

"I'd love to!" Pam said. She was very happy.

First, Pam had to ask her mother.

That night at dinner, Pam said, "Mom, may I go to the beach with Rosa and her family?"

"That sounds like fun!" Mom said. "But I would like to talk to Rosa's mother before I give you an answer. I'll call her after dinner, okay?"

"Okay, Mom."

Later that evening, Pam's mother called Rosa's mother. They talked for a while about the trip to the beach. Pam's mother learned which beach they would be going to and how long they would be there. When Pam's mother learned all she needed to know, she decided that it would be all right for Pam to go to the beach with Rosa and her family.

Mom told Pam to make a list of the things she would need to bring to the beach. This is Pam's list.

<input type="radio"/>	Things to bring to the beach:
